Make Connections on Three Continents
Within each region of study—United States, China and Europe—special focus will be given to how different economic, social and geopolitical factors influence business. Through both curricular and extracurricular activities, you will connect with faculty, alumni, employers and business leaders in each region.

Learn Through Cultural Immersion and Collaboration
Gain invaluable experience living, studying and collaborating with classmates from culturally diverse backgrounds as you move as a cohort between American, Asian and European residencies.

Whether you intend to pursue an internationally mobile career or focus your efforts domestically, this opportunity will help you develop a portfolio of global business skills and cultural immersion experiences—a distinguishing mark that will place you on employers’ short lists of globally competent business graduates.

All curricular, capstone, thesis, residential and student life experiences are integrated and closely coordinated by the three partner schools. The program is conducted in English.
