- ◆ Students are required to have at least one concentration, but no more than two.
- ◆ A track is a specialty area of study crossing over multiple disciplines. Courses taken to satisfy track requirements can also be used to satisfy concentration, minor, or major requirements. Commerce students may complete up to two tracks if course scheduling allows this flexibility. Each track has specific requirements for admission and completion. \*The Advertising & Digital Media Track and the Quantitative Finance track require an application.
- ◆ For additional information and specific requirements, visit the McIntire Tracks website at <http://www.commerce.virginia.edu/undergrad/academics/tracks/Pages/default.aspx>
- ◆ It's the student's responsibility to check their "Academic Requirements" report in SIS to confirm degree information.
